Pilot local llm access for FH teaching & learning purposes only

Version 5.10.2026

Pilot local llm access for FH teaching & learning purposes only

Selected locally hosted LLMs are available through 1) **OpenWebUI** and 2) a shared LiteLLM endpoint. Access is provided with an **API key** on a best-effort pilot basis.

Both access a SOTA model (right now it is: **Qwen3.6-35B-A3B**) on a single Blackwell RTX Pro 6000 with 96 GB VRAM.

1. Access – OpenWebUI

https://opah.aida.cs.technikum-wien.at/, login via your cis credentials

2. Access – API key via litellm

- Endpoint: https://lion.aida.cs.technikum-wien.at/v1
- Authentication: API key (Bearer token)
- Compatible with OpenAI-compatible clients and tools
- Keep your API key private — do not share or commit it to repositories

API Key Setup

Store your API key and base URL in .env

```
OPENAI_API_KEY=YOUR_API_KEY
OPENAI_BASE_URL=https://lion.aida.cs.technikum-wien.at/v1
```

Python Example

```
import os
from openai import OpenAI
from dotenv import load_dotenv

load_dotenv()
api_key=os.getenv("OPENAI_API_KEY")
base_url=os.getenv("OPENAI_BASE_URL")

client = OpenAI(base_url=base_url, api_key=api_key)

resp = client.chat.completions.create(
    model="Qwen/Qwen3.6-35B-A3B",
    messages=[{"role": "user", "content": "What is life? Answer in 10 keywords"}]
)

print(resp.choices[0].message.content)
```

Fair Use & Pilot Terms

- Access is for testing and FH-related purposes only
- Shared infrastructure: please use resources fairly and responsibly
- Students in pilot teaching courses have priority
- Access can be limited or revoked at any time
- Do not rely on this service for production or critical workloads
- Users are responsible for verifying model outputs

We need your feedback

If you use the service, please tell us how it went , it decides how this pilot continues.

What did you use it for? Was the model good enough? How was speed and availability? What broke or was missing? Anything else?

Send feedback to: MS-Teams „Lion-Group“ and/or isabel.dregely@technikum-wien.at
